WSDOT Construction Activity & Possible Delays/August 1-August 11, 2002

This update is also available by calling 1-800-695-7623, extension 511.

HIGH IMPACT!! US 2/Deer Road to Westwood Road (MP 296.26-306.18)- Work continues on this resurfacing project. Paving and grinding work is occurring 24-hours daily on both northbound and southbound lanes throughout the project vicinity. Motorists should be aware of lane restrictions, traffic directed by flaggers, slow-traffic, and construction personnel in and adjacent to the roadway. Traffic is being directed by flaggers at the intersections of both US 2 at SR 206 and US 2 at Day Mt. Spokane Road; motorists can expect minor delays at these intersections. At least one access to all homes and businesses in the project area will be maintained. Motorists in the project vicinity may listen to 530 AM for additional information.

HIGH IMPACT!! SR 20/Colville High School to Narcisse Road (MP 355.94-363.61)- On Monday, August 5, crews will start guardrail installation. Motorists can expect minor delays with possible slow, single-lane traffic controlled by flaggers and/or pilot cars. Major paving work is expected to begin in 2-3 weeks.

SR 23/Front Street in St. John (MP 14)- Work on this improvement project on Front Street continues. Motorists can expect some sections of unpaved roadway within the work zone. A 24-hour detour is in place for SR 23 traffic. This is a City of St. John project.

SR 23/SR 195 to the Lincoln County Line (MP 0.00-39)- Fog seal work may be underway during some portion of this week. While work is underway, motorists can expect loose gravel and fresh oil on the roadway. Expect possible slow, single-lane traffic controlled by flaggers or pilot cars. This work requires dry weather.

SR 27/SR 271 to Pine Creek (MP 36-41)- Chip seal and fog seal work may be underway during some portion of this week. While work is underway, motorists can expect loose gravel and fresh oil on the roadway. Expect possible slow, single-lane traffic controlled by flaggers or pilot cars. This work requires dry weather.

HIGH IMPACT!! I-90/Harvard Road Interchange (MP 296)- Work on the new westbound I-90 loop on-ramp and on Harvard Road continues. Motorists can expect lane restrictions and delays on Harvard Road, and are advised to travel at slow speeds to avoid flying rock material and watch for bumps on the roadway. Harvard Road driving surface is gravel. Motorists can expect possible lane restrictions throughout the week on westbound and eastbound I-90 and should be alert for slow traffic and congestion.

Weekly Update

August 1, 2002

I-90/Havana Street and Altamont Street (MP 283 & 284)- On Wednesday and Thursday, August 7th and 8th, crews will be performing pavement patching to westbound I-90 at these two locations.

Motorists can expect right-hand lane restrictions in the work areas from 9 a.m. to 4 p.m. during the duration of the work. Drivers should be alert for slow moving traffic and congestion.

HIGH IMPACT!! SR 127/Church Hill Road to Dusty (MP 18-27.05)-Crews are continuing work on this paving project. Motorists should be aware of possible lane restrictions and delays in the project vicinity. Motorists can expect 24-hour traffic control directed by flaggers and/or pilot cars and possible delays of 15-20 minutes.

SR 194/Almota to Jct. SR 195 (MP 0.00-21)- Chip seal and fog seal work may be underway during some portion of this week. While work is underway, motorists can expect loose gravel and fresh oil on the roadway. Expect possible slow, single-lane traffic controlled by flaggers or pilot cars. This work requires dry weather.

US 195/Meadowlane Road (MP 92.28)- Work continues on the construction of this right-hand turn lane on southbound US 195. Motorists can expect possible minor lane closures of the outside lane over during the next few days as crews stripe the roadway. Minor work items remain.

HIGH IMPACT!! SR 270/Pullman City Limits to Spring Street (MP 0.00-2.82)- Work continues on this paving project through downtown Pullman on Grand Avenue, Paradise Street, and Main Street. On Grand Avenue, motorists can expect minor, periodic parking and lane restrictions as crews install sign bridge structures. Other minor lane restrictions are possible throughout the project area. All businesses are open.

SR 272/Colfax to Idaho (MP 0.00-19.23)- Chip seal and fog seal work may be underway during some portion of this week. While work is underway, motorists can expect loose gravel and fresh oil on the roadway. Expect possible slow, single-lane traffic controlled by flaggers or pilot cars. This work requires dry weather.

HIGH IMPACT!! SR 290-Trent Avenue/Spokane River Bridge (MP 0.4-0.6)- Work is under way on this bridge replacement project between downtown and Hamilton Street. Trent Ave. is closed to through traffic between Riverpoint Blvd. and Cincinnati Street. Detours are fully signed. Access to all businesses on Trent is available. This is a long-term closure.

HIGH IMPACT!! SR 290-Trent Avenue/Fancher Road to Sullivan Road (MP 4.3-10.3)- Crews are performing shoulder work and striping the roadway. Some striping work will be completed through the night. Motorists can expect some traffic directed by flaggers and periodic lane restrictions throughout the entire project limits.

Weekly Update
August 1, 2002

HIGH IMPACT!! SR 290/Sullivan Road to the Idaho State Line (MP 10.35-18.38)- Work on this paving project continues. Crews will be continuing paving work though the weekend. Roadway striping and other minor items remain. Motorists can expect minor, periodic lane restrictions the entire project limits, and some areas of traffic directed by flaggers.

HIGH IMPACT!! US 395/Arden to Colville (MP 219-229)- Work on this pavement overlay project continues. Crews will continuing paving and start fog seal work. One-way piloted traffic control is in place. Motorists can expect up to 20-minute delays from 6 a.m. to 8 p.m. Monday thru Friday. Motorists should be alert for flaggers and other construction personnel in the project vicinity.

HIGH IMPACT!! US 395/Colville Main Street (MP 228-229)- Extensive work continues in downtown Colville. Main Street continues to be reduced to one lane in each direction with possible slow traffic; a detour is in place at the north end of Colville for SR 395 traffic. Motorists can expect some sections of gravel roadway within the work zone. All businesses are open. This is a City of Colville project.

U.S. 395-North Spokane Corridor/Hawthorne to U.S. 2- Crews are continuing installation of fencing along the new section of freeway. No traffic delays are expected.

HIGH IMPACT!! SR 904/Tyler to Cheney (MP 0.00-9.09)- Crews are continuing work on this overlay project; crews are performing paving and chip seal work. Motorists can expect traffic directed by flaggers and/or pilot cars from 6 a.m. to 7 p.m., Monday thru Saturday and may see delays of 15-20 minutes.
